

## Fertilizer spreader

### Key Features

1. The seeder is used for carrying on the big area, high grade and the highly effective sowing seeds work
2. It is easy to be used in the farmland and broadcasting the mixture of seeds and fertilizer in the pasture and thaw medicinal after snow
3. It is suitable for sowing seeds and broadcasting fertilizer in the smooth farmland of the agricultural area, the forest, the pastoral area, the grass, the land on slopes, then hill and so on

Model	CDR250	CDR400	CDR600	CDR1000	CDR1350
Capacity	250L	400L	600L	1000L	1350L
hopper material	PVC or steel			steel	
Weight	30kg	51kg	75kg	260kg	285kg
Working width	8-10m			20-30m	
matched power	12-30hp	25-50hp	25-50hp	50-100hp	80-120
Linkage	three point suspension linkage				

## ATV fertilizer spreader

### Key Features

1. Capacity from 2CBM to 10CBM
2. Driven by tractor, with PTO drive shaft
3. Rear door is ok to fit hydraulic operate
4. Two round discs work, better performance

Type	AFS-2	AFS-3	AFS-4	AFS-5	AFS-6	AFS-8
Hopper Volume(CBM)	2	3	4	5	6	8
Load-bearing weight( kg)	2000	4000	5000	6000	5000	6000
Matched tractor	>40hp	>50hp	>60hp	>65hp	>70hp	>80hp
Overall dimension(mm)	4100x1800x1700	4400x1950x1750	4400x1970x1850	4400x2170x1970	4950x2140x1980	5500x2300x2350
Throwing width(m)	8--12	8--15	8--15	8--15	8--15	8--15
Net Weight(kg)	1150	1230	1300	1570	1750	2250
Wheel spacing(mm)	1410	1690	1690	1770	1780	1880
Tyre size	10.0/75-15.3	11.5/80-15.3	11.5/80-15.3	14-17.5	14-17.5	16/70-20
