RECOIL START

I-LS 40 ton log splitter from AgKing

The LS40T-ETM log splitter makes quick work of the task of splitting logs. The powerful 40 tonnes of ram force can split logs up to 600mm long and 500mm wide in seconds. The splitter can be operated from a vertical or horizontal position. The trailer and hitch make it easy to tow or move with a regular vehicle.

Specifications
